THE MINIATURE COLLECTION

## Looking for a Standard Miniature Bottle?

***Increasingly popular 50ml miniature bottles are incredibly versatile.***

They are ideal for gift packs as they provide the perfect size for those wishing to sample different styles of a particular spirit, for when a small volume is needed to create a certain cocktail or if the consumer simply wants to take a conveniently sized bottle on a picnic or to a party.

Therefore, Allied has recently launched a new collection of miniature bottles. With a range of shapes and available in both premium and standard flint, each one of the stylish bottles is perfect for a premium spirit, whether it be a bold gin, a warming whiskey, or a hand-picked liquor.

Many of the bottles are available from stock and for additional on shelf presence can be decorated using sprays and screen printing, without the outlay or volume commitments which are required for a bespoke miniature bottle.

For further specification details please visit our website.

***Allied Glass has an exceptional portfolio of miniature spirit bottles geared towards high end spirits which are cost effective, practical, and readily available.***

A beautiful collection, these 50ml bottles have been created with the individual care and crafting expertise for which Allied is renowned, each with their own with individual style, which makes them perfect for any spirit brand.
